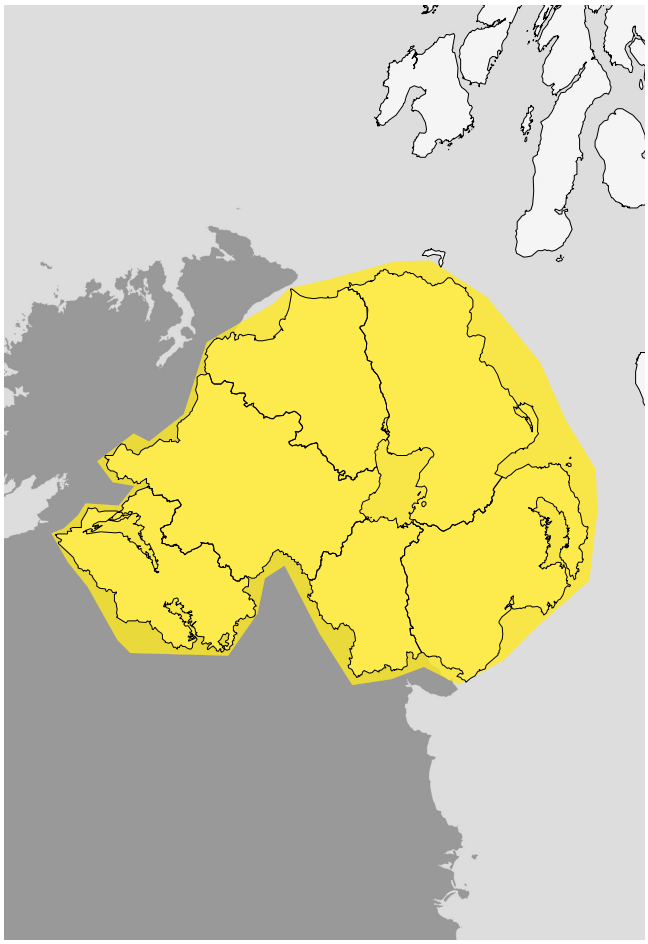
Yellow warning
Snow & Ice

Between
18:00 Tue 19 Nov 2024 and
10:00 Wed 20 Nov 2024



Wintry showers and icy surfaces will lead to difficult travel conditions on Tuesday evening, overnight into Wednesday morning.

What to expect

- Some roads and railways likely to be affected with longer journey times by road, bus and train services
- Some injuries from slips and falls on icy surfaces
- Probably some icy patches on some untreated roads, pavements and cycle paths

Further details

Wintry showers will develop during Tuesday evening and continue overnight into Wednesday morning. Away from the north coast lying snow is possible, with 1 to 2cm in places and up to 5cm over higher ground. Ice will readily form on untreated surfaces.

What should I do?

Keep yourself and your family safe when it is icy. Plan to leave the house at least five minutes earlier than normal. Not needing to rush, reduces your risk of accidents, slips, and falls.

Medium likelihood of low impacts

Issued at 10:05 Tue 19 Nov, 2024

Yellow warning
Snow & Ice

Between
18:00 Tue 19 Nov 2024 and
10:00 Wed 20 Nov 2024

Further Details (continued)

If you need to make a journey on foot, try to use pavements along main roads which are likely to be less slippery. Similarly, if cycling, try and stick to main roads which are more likely to have been treated.

Snowy, wintry weather can cause delays and make driving conditions dangerous. Keep yourself and others safe by planning your route, giving yourself extra time for your journey. Check for road closures or delays to public transport and amend plans if necessary.

If driving, make sure you have some essentials in your car in the event of any delays (e.g., warm clothing, food, water, a blanket, a torch, ice scraper/de icer, a warning triangle, high visibility vest and an in-car phone charger).

Be prepared for weather warnings to change: when a weather warning is issued, the Met Office recommends staying up to date with the weather forecast in your area.
